Individual reflection - Week 2

What do I want to learn or understand better?

Learning objective - Angular

A: Currently I have no knowledge in our work setup.

B: Understand how angular, html and css work in order to get our project started.

C: Reading about the different programs by testing and trying out the different components.

How can I help someone else, or the entire team, to learn something new?

Giving people tips of how to learn the different programs, and with my own programming knowledge try to help other people in my group to learn new stuff.

What is my contribution towards the team's use of Scrum?

I have added some backlogs tasks for the prototype, and updated it when working with the prototype.

What is my contribution towards the team's deliveries?

I do my tasks that has been handed to me, and together with one of the team members design a prototype of how the web page is supposed to look.
